---

### **Career Objective:**

Aspiring for challenging assignments in the field of testing and automation wish to achieve high career growth through a continuous learning process and prove to be an asset for the organization.

### **Skills Summary:**

- IT Professional, with 2+ years of experience in Software Testing.
- Good knowledge in **Manual** and **Automation** testing using Selenium with java
- Skilled in understanding Software Requirement Specification and identifying all possible Scenarios
- Familiar with all phases of Software Development Life Cycle, Software Test Life Cycle and Bug Life Cycle.
- Well versed with Test Documentation (Test Scenario, Test Case, Test Data, Defect Report and Test Metrics).
- Experienced in **Smoke Testing, Sanity Testing, Re-Testing, Regression Testing and Compatibility Testing.**
- Knowledge on different Levels of Testing (Unit Testing, Integration Testing, System Testing and Acceptance Testing).
- Having very good knowledge in Bug Life Cycle
- Good Knowledge in **MYSQL**
- Experience with creating the defects using **JIRA**
- Good Experience in writing XPath to locate web elements
- Ability to create test scripts using Selenium WebDriver with Java
- Experience of working in **Agile** software development lifecycle
- Good Experience in **Scrum** and **Scrum** Terminologies.
- Good knowledge in **Core Java** concepts
- Good Knowledge on **API Testing** using **Postman**

### **Technologies:**

- Automation Tools: Selenium WebDriver, TestNG, Cucumber BDD
- Build Tools: Maven
- Programming language: Core Java
- Web Technologies: HTML5, CSS3, Bootstrap4, JSON, Basics of JavaScript
- Database: MYSQL
- API Tool: Postman
- Version Control: GIT
- Bug Tracking Tools: JIRA
- Development Tools: Eclipse, VS Code, Web Storm, Sublime Text
- Operating systems: Windows family
- Scrum Experience: Daily stand-up meetings

Managing Product / Release backlogs  
Part of Sprint planning / Priority assessment  
Part of Release planning - Release planning

**Qualification:**

- B-Tech in Computer Science from Aditya College of Engineering and Technology with 61% in the year 2018
- Intermediate from Aditya Junior College with 66% in the year 2012
- SSC from Govt. High School for Boys with 75%(2010) in the year 2010

**Professional Experience:**

Working as software Quality Analyst in APPZWORK Software Services Pvt Ltd. Hyderabad from May 2021 to till now.

**Project Experience:**

Project – Guidewire Claim center  
Client – Capital one Insurance USA  
Duration – April 21 to till date  
Team Size – 4

**Project Description:** Developed a web-based application that automates the process of managing insurance policies for an insurance company. The system allows customers to create and manage their policies online, while the insurance company can manage policies, premiums, and claims processing.

**Responsibilities:**

- Create test plans and test cases based on the requirements.
- Conduct manual functional testing, regression testing, and integration testing.
- Documented defects and issues found during testing.
- Coordinated with the development team to resolve defects.
- Developed and maintained automated test scripts using Selenium WebDriver, TestNG, Maven, and Java.
- Conducted automated functional testing and regression testing.
- Configured the test automation framework using Page Object Model and BDD (Behavior-Driven Development) approach with Cucumber.
- Integrated test automation scripts with Jenkins for continuous integration.
- Documented test results and issues found during testing.

**Environment:** Java, Spring, Hibernate, AngularJS, Selenium WebDriver, TestNG, Maven, Cucumber, Jenkins, MySQL, AWS.
